

# LA FOLLETTE WINES

AN ONGOING DIALOGUE  
WITH SINGULAR VINEYARDS

## OUR PORTFOLIO

La Follette's winemaking philosophy embodies both the art and science of Pinot Noir and Chardonnay winemaking with a goal of crafting wines with unique expressions that reflect the winemaking vision of our founder Greg La Follette. A true artistic creation is possible when deep scientific knowledge sets the stage for experimentation and intuition. Employing intelligent risk-taking, La Follette strives to maximize flavor and texture in all of our wines while embracing the French concept of "élevage", which means to purposefully nurture the wine through its various stages, beginning in the vineyard. Time, attention and precision create individual wines that each offer distinctive flavor and aroma profiles from renowned vineyards.
